2020/2021 timetable changes in November

09.11.2021

On Sunday, November 7, 2021, the correction to the train timetable was introduced. Under this timetable trains will run until December 11, 2021. Please check the timetable before the journey.

During 2020/2021 timetable the Polish infrastructure manager, PKP PLK, planned to introduce five adjustments to the timetable due to modernisation and construction works on the railway network. The correction, which came into force last Sunday, will be the last one to the 2020/2021 timetable, which will be in use until December 11, 2021.

Any changes to a timetable should be announced at least 21 days before their entry into force on the infrastructure manager's website. Passenger stations' managers are under obligation to publish a new timetable at least 10 days in advance to the introduction of a new timetable or timetable changes. Appropriate information should appear on posters or boards at train stations, platforms or passageways to platforms. The updated timetable should also be available on the rail carriers' websites, although the Polish law does not impose any specific publication dates.

Due to the increase in the number of persons infected with the SARS-CoV-2 virus, we would like to remind you about the obligation to cover the mouth and nose with a mask when on train.
